Wangi Wangi is a small school with a big heart! We have enjoyed a very busy and rewarding first semester. The children have welcomed many opportunities to develop and share their talents within the school, our local community and the wider community. Some of the highlights during Term 1 and Term 2 include: opportunities for our dance groups and choirs to perform for the community, participation in Choral Festival, a school public speaking competition, participation in Regional debating competitions, Questacon science workshops and Waste Watch workshops with Lake Macquarie City Council. All children participated in our Easter Hat Parade and Harmony Day celebrations. Junior students also enjoyed an informative and fun day at the Australian Reptile Park.

Wangi children are known for their love of sport and had many opportunities to participate in school and regional sporting events. We witnessed wonderful team spirit and enthusiasm at our swimming, cross country and athletics carnivals, with many students qualifying to represent the school at a Regional level and we even had one student represent us at State! A special feature of our carnivals has been parent/grandparent participation with over 20 parents nominating to run in parent relay teams. The highlight however was our very strong Year 6 team overpowering our Dads’ team in the Tug-O-War!

Semester 2 promises to be equally as busy, with educational and fun activities planned to showcase our talents during Education Week, Book Week and at our Wangi School concert. Students will also participate in sports gala days, excursions, social activities and a school Spelling Bee with winners going off to represent us at a Regional level.
